

COUPLES SERIES

FROM \$156,300

MODEL OVERVIEW

Designed for you to explore the far corners of the continent without compromise in comfort, reliability and off grid capability, our range of couples caravans will follow where ever you go. Built to handle any conditions Australia has to offer, you will stay comfortable all year round with our fibreglass composite body with closed-cell XPS core for maximum thermal efficiency. Enjoy the freedom of off grid and remote travel with the Ecoflow 48V battery system and large solar arrays, coupled with a diesel hot water and air heating system with a 40 litre diesel carrying capacity and 255 litre water storage.
